Lake Brownwood Fish Habitat Application Instructions

Brown County Water Improvement District is currently allowing fish habitat to be placed in Lake Brownwood to improve fish population and fishing in the lake. There are guidelines that must be followed to secure the quality of water and ensure safety of people using Lake Brownwood for recreation such as swimming and water sports.

Guidelines:

1. Only inert materials or natural materials may be placed in the lake.
   Examples of materials are any type of brush, plastic pipe or untreated wood.
   Material will need to weighted to keep it from floating to the surface with rocks or concrete. No material that has been treated with or contained any type of chemical will be allowed in the lake. Tires will not be allowed as fish habitat.
2. All habitat structures must be at least ten (10) feet from the surface of the water at spillway level (1425 msl) to the top of the habitat structure. These structures must not be a hazard to navigation or water sports including swimming. Habitat placed around docks must be placed so as not to cause a hazard to anyone diving off said dock.
3. All habitat placed in Lake Brownwood is open to fishing by anyone legally fishing on Lake Brownwood.
4. Information required by the Brown County Water Improvement District before placing habitat in the lake as follows:
   a. Name of person placing habitat.
   b. Contact information.
   c. Type of material and structure to be used for habitat.
   d. Date and location in the lake where habitat is to be located.
   e. Number of structures to be placed at location.

This information must be submitted to Lake Brownwood Lake Patrol and/or the Main Office for approval PRIOR to placement of habitat structures.
